'Excellence and happiness for all'

26 April 2021

Dear Parents/Carers

In Year 4, our current science unit is looking at living things and their habitats. As part of this work, we have been learning about teeth and how to care for them. In Year 4, we use disclosing tablets to identify plaque and show children the key areas where plaque can accumulate on their teeth.

Disclosing tablets contain a harmless dye which stains the plaque and makes it visible to the human eye. Disclosing is an invaluable aid in teaching toothbrushing and the prevention of gum disease. It is also a practical way to learn about the importance of oral health and has always been an enjoyable lesson in the Year 4 curriculum.

If you do not want your child to take part in this lesson, please complete and return the slip below.

Mr Draper's lesson - Please could you send your child to school with their toothbrush and toothpaste on **Wednesday** for this lesson.

Mrs Johnson/Mrs Sims lesson - Please could you send your child to school with their toothbrush and toothpaste on **Thursday** for this lesson.

Kind regards

Mrs Sims, Mrs Johnson & Mr Draper
Year 4 Teachers

Year 4 Disclosing Tablets Lesson

I do not want my child (Name of Child) to take part in the Disclosing Tablets lesson.

Name of Parent:
